

## 2022 Craft Challenge Prompts

I challenge you to create some of your favorite things, using some of your most desired media and techniques. Here is a list of prompts for each month to help guide you through your creative journey this year. You must use at least three (3) items from each list per month to complete your projects. You can combine those 3 items with anything else to add in your creations.

Share them on your favorite social media platforms all month long using the hashtag provided for each month. You can make multiple projects from the same prompts each month.
