

TIPS

Most of multimediacraftsdigi.com Freebie digital files are in either .png or .jpeg format. Occasionally they will be in PSD format. These images can be printed on various types of printers (including both inkjet and LaserJet). Some of the digital pages vary in range from 8.5" x 11" to 12" x 12" in size. These larger files may need to get adjusted to fit the style printer you are using. This can be completed using software that can accommodate diverse formats and layers, such as Adobe Photoshop, Paintshop Pro, CorelDraw and more.

You may need research which program is the best for your needs.
